REGULAR MEETING MARCH 4, 1991

The Regular meeting of the Board of Supervisors of Bear Creek Twp was held on Monday March 4, 1991 at 7:30 PM. Chairman Michael Gatcha presided with supervisors Tyrone G. Gayeski and Alfred J. Speicher. Attorney Peter Hoegen was also present. Salute to flag followed.

Motion to approve expenditures was made by Mr. Speicher and seconded by Mr. Gayeski. Vote unanimous.

Motion to approve receipts was made by Mr. Speicher subject to audit and seconded by Mr. Gayeski.

ROADMASTERS REPORT....Mr. Speicher roadmaster reported, seventy one man hours were spent and forty three tons of material was spread on twp roads during the month of February with freezing rain and icy spots causing most of the problems. Some of the nicer days were spent patching holes on Ridge Road and Balsam road and repairinga washout on E. Parkway with modified stone. Oil changes and grease jobs were performed on the two largest trucks and also on the pickup truck. A new clutch and throw out bearing was installed in truck #4. Crews were called out on eight (8) separate occasions for snow and ice removal and cindering.

WATER PROJECT...Mr. Tanski updated the supervisors as to progress on the Francis Walter Dam project. He stated Hazleton will withdraw 2½ Million gallons of water from the Leigh and dischare waste to the Susquahanna. Everyone is in an uproar, no cost figures to date. Basically Bear Creek Twp is not an influence at this point.

OLD FORD ROAD...Atty Hoegen stated he is still reviewing this matter and has contacted the secretary for a more detailed file on this matter.

NIELSEN....Atty Hoegen stated an inspection was made by Atty Yanik and Zoning officer. To his knowledge the vehicles have been removed. He felt the township is in the position to dictate their terms at this point. He also stated we need to authorize someone to sign the necessary papers to make a settlement. If we do not, the court may put us off for a long period of time. A discussion was held on lot 7A- which is zoned residential. Nielsen is not in strict compliance with the courts order, Atty Hoegen will ask the court to enforce its order.

BEAR CREEK BORO...Nothing at this point. Waiting for a hearing to be scheduled.

CODIFICATION...Atty Hoegen stated he would have a draft by the end of the month.

ZONING HEARING BOARDS....Atty Hoegen stated if someone appeals a decision of the zoning bd, it is necessary for us to enter an appearance in that case, no matter what side you are on. The zoning hearing board it's self can not take a case on appeal. If we are prepared to enforce a decision of the zoning hearing board to the commonwealth court, it is necessary for the board to enter an appearance in a case like that. We should probably because of the time between meetings have a resolution to authorize the board to enter an appearance, not necessary participate in the appeal, but atleast be a parties to appeal. Then later you may want to participate in the case. Mr. Gatcha asked what happens when the zoning boards decision causes a hardship to the other individuals. Atty Hoegen stated the individuals can appeal it to the court of common pleas.

VENTILATION SYSTEM..Atty Hoegen stated Atty Yanik inspected the site with the zoning officer and at the time the systems was not runing. Their was nothing that Atty Yanik could see, which he thought might be a violation and he did not get any recommendations from the zoning officer so he suggested a request for DER to examination to determine if any problem with the system. They are probably in violation of the contractors permit. It would not effect the construction, but would effect the permit. He would forward the necessary complaint to DER regarding the complaint.

LANDFILL ORDINANCE...Atty Hoegen stated we received this request a week ago and it is dated September 1990. He did talk to other townships and they did not get this either. He felt no panic to act at this point, he would like to review it further and investigate it further. A discussion was held on this matter. He would like to postpone a decision until later.

ZONING HEARING UPDATE....Mr. Gatcha read the yearly report on the actions of the zoning board for 1990.

TRUCKS SPECKS... Mr. Gatcha stated he reviewed them and contacted the roads and grounds foreman Mr. Martin and discussed them with him. Mr. Gayeski reviewed the specks with comments. A discussion was held. The secretary was instructed to put the bids out as soon as possible.

GULF WAR...Mr. Gatcha asked if signs could be made and installed in the township stating that we back the troops. He stated other twp have done this and felt it is a good idea.

PERSONNEL...The supervisors would recess for an executive session to discuss the position of zoning officer.

FIRE COMPANY CONTRACT...A discussion was held on this matter. Mr. Gatcha and Mr. Speicher stated that the fire dept contacted them regarding the pending contract they forwarded to the board for consideration and adoption. Atty Hoegen stated he was asked to review this contact and felt that the supervisors could not sign it. The secretary was instructed to forward a copy of the original contact the township had with them for signatures. They felt this contract is a good starting and finishing point.

Garbage collection...Mr. Gayeski stated he had been contacted by the people in the township regarding garbage collection. He felt an agreement with the individuals and the collection agent could be worked out with the amount of money and how many bags for each household.

SIREN TESTING...Mr. Gatcha stated he had requested a letter be forwarded to the fire dept regarding the testing of the siren at last meeting. He felt if they want to ring the siren, the twp would not be held liable for ringing of said siren. He would like to have it as a matter of record. He stated he is not telling them to ring it or not to ring it. He asked the solicitor if he felt their would be a problem with forwarding this letter. The solicitor felt it would be alright. The secretary was instructed to forward the letter. Mr. Gayeski stated maybe they could just have agrawl instead of a ring. Mr. Wasilewski JR stated the zoning board was not aware of the result of the siren testing. Mr. Gayeski asked was the zoning board notified of the results. Atty Hoegen stated he talked with Atty Mattern and he asked for a copy of the zoning boards decision so he can review it, then they would decide what the next step would be.

CORBETT AND SLUSSER COMPLAINT...The secretary stated she was instructed by Mr. Gatcha to contact the SEO regarding this matter. She stated he would be forwarding a letter to the twp and also stated Mr. Slusser has until May 10 to correct the situation.

Motion was made by Mr. Speicher and seconded by Mr. Gayeski to adjourn Meeting adjourned at 8:30 PM. Vote unanimous

NIELSEN....Ltr was forwarded to Atty Bart regarding inspection of the site (lot 045A) and also that the Nielsens continue to be in contempt of court by dailing to pay the monetary fines due and the payment is due by March 21, 1991. Also Atty Yanek informed then that they are in violation of the township zoning ordinance by placing junked cars and buses on lot 7 and that a citation for this violation will soon be issued by the zoning officer.
